Migration of On-premise ADFS on Microsoft Azure Cloud for one of the largest paint manufacturer in India

CASE SUMMARY

Need
Customer wanted to move from Lotus Notes to Office 365 and wanted a single sign on experience with complete cloud solution.

Solution
Sonata helped customer to migrate on-premise Active Directory Federation Services (ADFS) on Azure.

Benefits
Enabled cloud-based solution for single sign on for the customer.

SONATA
SONATA SOFTWARE

The Platformation™ Company

Business Challenge

Customer intended to move their complete communication and collaboration solution from Lotus Notes to Office 365. Customer wanted the complete solution to be on cloud to refrain from the hassles of investing and managing in physical infrastructure. Customer had an on-premise AD integration of the same with Office 365 to achieve single sign on experience for all the users.

Sonata's Technology Solution

Sonata suggested customers to build their ADFS in Microsoft Azure Cloud. Sonata created a VPN connecting the company's LAN with Azure subnet. Sonata moved complete client ADFS infrastructure to Azure and provisioned for High Availability using Azure Load Balancers. Sonata then enabled federation with active directory of the Cloud Service achieving single sign on for all the users.

Business Benefits

- Enabled single sign on for the customer
- Major reduction in infrastructural cost
- Reduction in cost for ADFS infrastructure support
- Moved customer CAPEX cost to OPEX
- Fast & scalable provisioning

ABOUT SONATA SOFTWARE

Sonata is a global technology company, that enables successful platform based digital transformation initiatives for enterprises, to create businesses that are connected, open, intelligent and scalable. Sonata's Platformation™ methodology brings together industry expertise, platform technology excellence, design thinking-led innovation and strategic engagement models to deliver sustained long term value to customers.
